

Group tours to the Ligurian Riviera

Portofino & Cinque Terre and more...

Experience the northern Italian coastal region Liguria with its contrasts between the mountains and the sea with a mild climate throughout the year. Be enchanted by the unique landscapes of the coast and the pure hinterland. Discover the Italian "dolce vita"!

To get the most out of your trip to Liguria we recommend you travel between March and June and in September and October. At the **western Ponente coast** we recommend daytrips to Sanremo, Alassio, Albenga, Savona, Imperia and Loano. The most popular spots at the **eastern Levante coast** are Camogli, Santa Margherita Ligure, Portofino, Rapallo, Sestri Levante, the Cinque Terre and La Spezia. The border between the two coasts builds Genoa, the capital city of Liguria.
